

Thank you for buying Plants Pack Vol.1!

The "Plants Pack Vol.1" package is a set of 7 plants designed to add more detail and realism to your Unity projects. This package includes a variety of popular plants such as the cactus, Monstera Deliciosa, Pilea Peperomioides, Pothos, Sansevieria, and Tropical Spathiphyllum. Each plant has been meticulously modeled with high attention to detail and quality textures to provide a complete immersive experience. Additionally, you can customize the color of each plant's vase to perfectly match the aesthetic of your project.

Technical specifications:

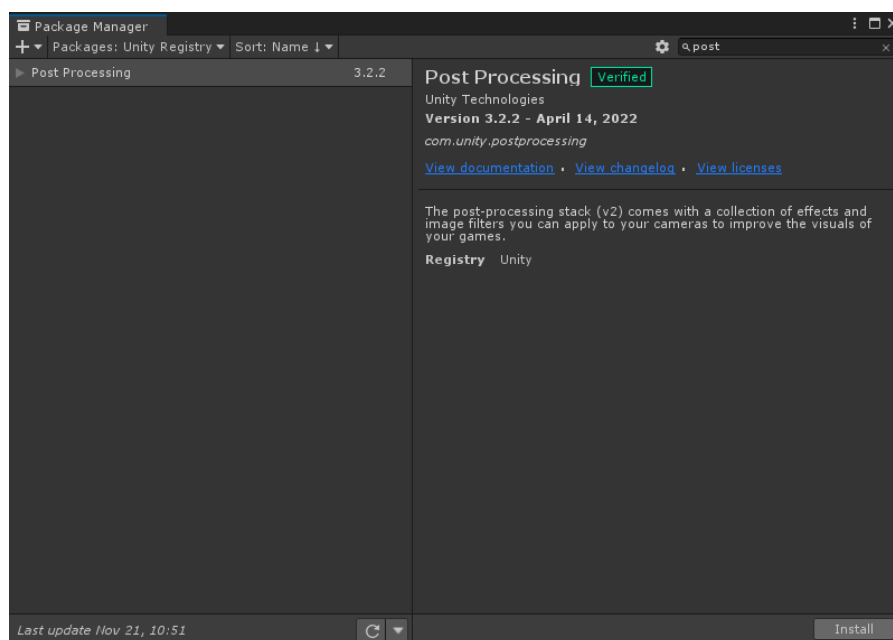

- Number of Unique Meshes 14.
- Number of polygons - from 892 (for simple models) to 11,500 (for complex models).
- Texture size (2048 x 2048).
- Types of texture maps – Albedo, Normal, Occlusion, MetallicSmoothness.

The package contains:

- 8 Fbx models
- 7 Prefabs with colliders
- 28 High Quality Textures (2048 x 2048)
